DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The examiner has not found a network system with a plurality of users (routers) where each of the plurality of users (routers) has its own unique address, where a first network device (router) determines all the destination addresses which can be reached by the first device (router), and then the first network device (router) sends a bundled packet to the rest (multicast/flooding) of the plurality of users (routers) reachable via the first user (router), wherein the bundled packet comprises all the destination addresses which can be reached from the first network device (router).

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

(a) Nakamichi et al. (US Patent Publication 2002/0085498), Device and method for collecting traffic information.

(b) Ketcham (USP 6,721,334), Method and apparatus for packet aggregation in packet-based network.
